Experience

- Support Associate**
Zippe (Oct 2023 - Nov 2024)
 - Provided customer support via chat and phone.
 - Assisted with documentation and technical issue reporting.
 - Improved communication between users and technical teams.

Projects

- Event Finder Web App**
<https://event-finder-rust-psi.vercel.app/>

Built a full-stack app to scrape and display Sydney events. Used React, Node.js, Cheerio, and MongoDB. Added filtering and search to enhance UX.
- Shopease E-commerce App**
<https://shopease-ecommerce-x3xn.vercel.app/>

a modern full-stack e-commerce application using Next.js and Supabase. The platform allows users to browse products, add new items with details like name, price, and description, and manage product listings efficiently.
- Chat Assistant (AI Voice Assistant)**
<https://github.com/Ayushdubey5/Voice-assistant-using-Python>

Python-based voice assistant using OpenAI, speech recognition, and TTS. Automates basic commands and intelligent responses.
- Hospital Management System**
<https://apollo247page.netlify.app/>

web app build to help book online appointment select your preference from filter see reviews. ui/ux features also fetches details from database MongoDB .build using react, tailwind, node.js.
